

## Cat6/6A RJ45 Connectors & Boots For Slim Stranded (28/32 AWG) Cable With Load Bar 100/100-Pack (C20-FRTSL6-KIT)

- Compatible with round-stranded Slim Cat6 & Cat6A Ethernet (28/32 AWG) cables.
- The included load bars help to ensure the conductors are properly aligned and to feed them through to the crimp contacts on the end of the connector.
- 3 prongs makes a secure and reliable electrical connection.
- Snag proof boot design protects the locking tab of the RJ45 connector when plugging and unplugging.
- These clear strain relief boots are designed to protect your slim patch cables from exceeding the bend radius of the cable and damaging it.
- This strain relief boot fits cables with outer diameter up to 4.5mm and is generally for slim Cat6/6A.
- All relevant materials have complied with the RoHS directive.
- For use with TR4-570B-SLIM and TR4-570BL-SLIM
